

WELCOME

We invite you to join a very special group of people...our patients. We are a complete dental care team specially trained to offer a wide range of dental services. Your health and comfort is our primary concern with our ultimate goal being prevention and control of dental disease.

The flyer shown to the right may have been sent to you offering our warmest welcome to the neighborhood as well as a couple of new neighbor discounts for your consideration. Those offers are reprinted below for your convenience.

On your first scheduled visit we ask you to complete a health questionnaire when you arrive. During the initial visit we will perform a complete oral examination.

We believe every patient should fully understand the status of their dental condition and what is required, if necessary, to restore their mouth to optimum health. After our examination, we will discuss a practical treatment plan with you.

This plan will tell us where we are going, approximately how long it will take to get there, and what the investment will be. You will then decide what treatment will work best for you and your lifestyle

We are also available for emergency care. We will take immediate steps to relieve any discomfort you or a member of your family may be experiencing. If an emergency situation should arise, please call us as early in the morning as possible or leave message on our after hours voice messaging line. We will accommodate you at the absolute earliest possible time.

We are delighted to have you as neighbors and hope to have the opportunity to meet you and serve your future dental health needs.

Sincerely,

jamesjschaefer DDS
